

MYSTIC AIR

Ambience Management Through Aroma

The No1 aroma management solution from NCH Facilities.

Unique aromas provide the right ambience tailored to your environment and business requirements.

MYSTIC AIR

NCH
facilities

What is ambience management?

70% of our feelings are steered by the nose.

In a well aromatized room we feel comfortable.

The ambience of a room is not just specified by the size, fabrics, colours, light and music, but **DECISIVELY** and **MAINLY** by the aroma of it.

What is MYSTIC AIR?

MYSTIC AIR utilises the latest cold air technology to produce constant and steady fragrances throughout the day.

Unlike traditional aerosol based sprays that produce heavy droplets that coat surfaces, the light and fresh fragrances produced by **MYSTIC AIR** stay in the air longer.

MYSTIC AIR

What can **MYSTIC AIR** do for your business:

- **SHOPS** – buying intention and resting time increases; increases turnover
- **HOTELS** - feels luxurious and cosy; increases returning customers
- **OFFICES** – improves customer experience, increases growth and customer satisfaction.
- **RESTURANTS** – improves experience, increases returning customers and increases turnover

The MYSTIC AIR solution:

- **Fully automated:** installed, set up and refilled by our dedicated field team
- **Hassle free:** no input from your teams, NCH Facilities team visit regularly to refill and ensure the right aroma is always dispensed
- **Business specific:** specially selected aromas for different business types
- **Any room size:** 3 sizes of unit used in combination ensures all areas have fresh, unique and regular aroma
