

# ADS Power Clean

Cleaning powder for enclosed parts washers

- Water dilutable
- Non-flammable
- Non-foaming
- Formulated for the ADS hot wash range

## PROBLEM SOLUTION

Detergent foaming in use and spilling onto floor

ADS POWER CLEAN does not foam, actually helps decrease foaming due to greasy soils

Parts corrode immediately after being cleaned

ADS POWER CLEAN contains an inhibitor that prevents corrosion during the cleaning operation

Grease and heavy soils on metal parts

ADS POWER CLEAN is highly effective at cleaning, degreasing and de-carbonizing metal

# ADS Power Clean

Cleaning powder for enclosed parts washers

## TECHNICAL SPECIFICATIONS

pH at 100%	13.3
H <sub>2</sub> O solubility	Appreciable
Specific gravity	0.896
Odour	Odourless
Flash point	Non-flammable

## DIRECTIONS

Add 4kg ADS POWER CLEAN in up to 200L hot or cold water for enclosed washers.

Parts may need to be completely dried or coated with a rust inhibitor to prevent rusting after cleaning.

ADS POWER CLEAN is intended to be used with the **ADS800** Automatic Parts washer, but works well in other brands as well.
