

## Chemistry Guide – ADS 800, Version: 4.11.2022

	<b>Storm 1</b> Soft /White Metals	<b>Power Clean</b> General Purpose	<b>Super Bee™</b> Aviation Chemistry
Contaminants	Oil, Grease, Cutting Fluid, Dirt, Carbon	Scale, Carbon, Heavy Duty Soils	Oil, Grease, Cutting Fluid, Carbon, Scale
Substrate	Aluminum, Brass, Copper, Stainless Steel, Plastics	Mild Steel, Cast Iron	All, particularly Aluminium, Copper, Zinc
Industry Types	Medium to Light Applications	Heavy Duty	Aviation Approved
Advantages	Excellent on White/Soft Metals. NSF Approved	Excellent on Automotive Gearboxes/Engines	Aviation Approval, Industry Standard
Disadvantages	Can foam if not up to Temperature	Can leave white residue on some applications	Only use for Aviation
Volume per fill	4 Liters	4 Kg tub	5 Liters
