

Super Bee™ 300 LFG

Aviation approved water based parts washer cleaner and degreaser

- Powerful degreaser
- Effectively neutralises fuselage surface after paint stripping
- Controlled foam to allow use in agitated tanks or spray washers
- Non flammable
- Surfactants are biodegradable
- Safe on steel, aluminium, titanium, magnesium and copper alloys
- Rolls Royce and aviation approved

PROBLEM SOLUTION

Detergent foaming in use and spilling onto floor

SUPER BEE™ is low-foaming and was developed for use in enclosed equipment where foaming is not permissible

Not permitted for use with aviation industry

SUPER BEE™ is approved by Rolls Royce and is aviation industry approved allowing use in degreasing equipment within the aviation sector

VOC from hydrocarbon based solvents

SUPER BEE™ contains no VOC's. Safer for the user and the environment

Wide variety of metals to be cleaned

SUPER BEE™ is safe to use on steel, aluminium, titanium, magnesium, copper alloys and all other metals. Will also clean plastics and painted surfaces

Super Bee™ 300 LFG

Aviation approved water based parts washer cleaner and degreaser

APPLICATION AREAS:

- NCH & Pure Solve water based parts washer, Torrent & ADS
- Ultra sonic baths
- Water based degreasing tanks

TECHNICAL SPECIFICATIONS

Type	Aqueous Degreaser
Appearance	Clear to slightly hazy liquid
Odour	Very mild solvent odour
Solubility in water	Soluble
Foaming properties	Low foaming
VOC	0%
pH of degreasing solution	12

DIRECTIONS

1. Use 3-10% Super Bee™ concentration in water. Super Bee™ is more effective when the machine is cleaned and the previous product is removed completely, before use.
2. Super Bee™ is safe to dilute at up to 50% concentration depending on the soil needed to be removed from the part.
